

Bern-Fribourg Master in Earth Sciences Information Event: 27.2.2012

Have your Bachelor studies infected you with a fascination for Geology? Are you interested in pursuing your studies at the Master level? Do you wish to train for an exciting career in research or industry?

We are pleased to invite you on February 27th to a brief information event regarding the Bern-Fribourg Master in Earth Sciences. This is a chance for you to meet potential advisors, to discuss the options for curricula and to quiz current Master students about their experiences.

Place: Studer Auditorium, 2nd floor,
Institute of Geological Sciences
Baltzerstrasse 3, 3012 Bern

- 16:15 Presentation of MSc curriculum
Prof. Fritz Schlunegger, Uni. Bern
- 16:30 Details of the 5 MSc specialities
Prof. Fritz Schlunegger, Uni. Bern
- 17:00 Aperó and poster presentation by
current MSc students
(coffee room, ground floor,
Baltzerstrasse 3)

The Bern-Fribourg Master in Earth Sciences is a joint programme run by the Institute of Geological Sciences at the University of Bern and the Department of Geosciences at the University of Fribourg
